President's View

Even as the economy starts to show a few signs of improvement, we all know we are still not "out of the woods" yet, not by a long shot. But

as an active member of FIGFCU, you position yourself daily for better pricing, better service, and better choices among a full range of competitive products and services. The more active you are with us, the better for you over the long term.

Services such as direct deposit of your net pay to your FIGFCU checking account qualifies you for select loan discounts. And if you have one of our dividend paying checking accounts and maintain a \$500 balance, the service charge is waived and you will get free IdentitySecure as well. My letter was sent to eligible checking accountholders recently, so you may have already activated your IdentitySecure account. If not, activate today in order to take advantage of this great new, free service from your Credit Union.

Be very careful about scams and frauds out there. Never give out information over the phone until you are absolutely certain to whom you are speaking. Never give out an online

account password, even to us! (We would never ask you for it.) Remember, if something sounds too good to be true, it almost certainly is. Guard your privacy and confidential records closely, as we do.

As to borrowing, don't let the struggling economy scare you out of prudent borrowing. Follow your own well thought out plans; know how your fiscal situation fits into the economy at large and when the time comes to borrow, we will likely be able to offer you the best rate and service. If you are an agent or DM looking to buy or refinance your own office building, we have the right commercial real estate loan for you.

And as to saving money each payday? Even though dividend yields are low, ours are better than most. There is never a bad time to save money. Saving systematically and watching your account balances grow will give you an enhanced overall feeling of self-empowerment, and bring you more peace of mind. No, money isn't everything, but having enough is critically important. By self-disciplined personal and agency budgeting, you have it in your power to make sure you "have enough" when times are tough.
